

# Nova™

## Complete Urodynamics System

System which always adapts to your daily needs.

- Stable trolley based system
- Height adjustable stand
- Device chassis equipped with braked wheels allows for easy movement of the device, facilitated by convenient handrails.
- Infection control friendly keyboard
- Touchscreen monitor
- Uses water-perfused urethral and abdominal catheters
- Customizable equipment options:
  - infusion pump scale
  - UPP puller
  - commode chair

### Uroflowmeter

- unique wireless technology at 866 MHz
- incredible battery performance (up to 2 years between changes)
- no regular/daily charging of flow meter base meaning no missed clinics due to batteries
- Stand is easily height adjustable

# Nova Uromic Software

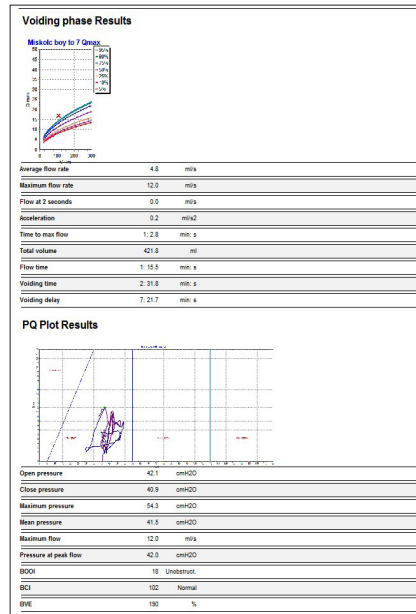

- Configurable to your needs
- Multiple language versions
- DICOM
- Predefined protocols / customized protocols
- Methods conform to ICS standards
- Nomograms
- Software for EMG & Biofeedback
- Post-study review & editing
- Online remote service support
- Offers option to add anorectal manometry

## Basic features of urodynamic systems UROMIC

	Uromic Jive
Measuring channels	5
Wireless connection	●
Uroflowmetry	●
Filling cystometry	●
VLPP	●
Profilometry (UPP)	●
Pressure Flow study	●
EMG, Biofeedback	●
Videourodynamics	—
Ultrasound module	—
Anorectal manometry	●

## Report examples from Nova Uromic Software

● option    ● standard    — not available

## CPT Codes associated with Urodynamics:

- 51726 Complex Cystometrogram (CMG)
- 51727 Complex CMG w/ UPP/VLPP Studies
- 51728 Complex CMG w/ Voiding Pressure studies
- 51729 Complex CMG w/ UPP/VLPP studies and Voiding Pressure studies
- 51741 Uroflowmetry
- 51784 Electromyography (EMG)
- +51797 Intra-Abdominal Pressure Test
